

28 June 1965

Dear Jim:

This will confirm our telephone call of 28 June 1965 regarding final settlement of Contract UT-846. Please call me when you feel that all costs have been accumulated and I will arrange to have an auditor visit you for final audit. At that time you can probably work out with the auditor final overhead rates upon which we can all agree.

Perhaps in the interim you can review the residual inventory and the documentation. Rod and I will visit you sometime in July, or later if this will be more suitable, and we can then resolve any matters concerning residual inventory and classified documents.

We will need a patent statement with your final claim.

I think the foregoing will permit us to settle all matters arising under the contract.

Very truly yours,

Art
